Jl. Sukabirus No.92, Citeureup, Kec. Dayeuhkolot, Kabupaten Bandung, Jawa Barat 40257

SUMMARY

Fresh graduate in Software Engineering with a focus on Full-stack Development. Proven experience in building RESTful APIs and IoT-based backend systems using Laravel. Passionate about software craftsmanship, clean architecture, and developing scalable solutions that improve user experience.

WORK EXPERIENCES

Badan Pelaksana Otorita Danau Toba (Internship)

Jul 2024 - Aug 2024

- Contributed to creating a website for managing data on tourist attractions at BPODT Caldera Resort using Codeigniter framework.
- Implemented an interactive maps feature on BPODT Caldera Resort's website with CodeIgniter, enhancing tourist navigation and experience.

HUMIC (Human Centric) Engineering Research Center (Internship)

Feb 2024 - Jun 2024

- Contributed to developing the backend system of Symptosense (IoT-based patient monitoring app) using Laravel, improving system reliability for real-time data handling.
- Applied SCRUM methodology in team collaboration and project execution.

PROJECTS

- Symptosense – Web app for disease detection using AI based on input symptoms.
- Caldera Insight – Web app for tourists to access information about Caldera Toba.
- EduSkill – Web app for course registration and participant data management.
- My web portfolio - <https://arzaqweb.vercel.app>
- Premier Zone Database - <https://saiki.cloud> (A Premier League Statistic Website)
- My other projects – <https://github.com/Sayiki>

SKILLS

Python, React, Laravel, Node.js, Next.js, MySQL, Figma, CodeIgniter, Tailwind, Bootstrap, Postman, Spring Boot, PostgreSQL

EDUCATION

Bachelor of Software Engineering, Telkom University Bandung

Sep 2021 - Nov 2025

Undergraduate Software Engineering, 3.49/4.00

High School, SMA Sulthon Aulia Boarding School - Jakarta Timur, Indonesia

July 2018 - May 2021

High School Diploma, Science Class (IPA), 83.28/100

ADDITIONAL INFORMATION

- Languages:** Indonesian, B2 English, Malay.
- Certifications:** Intellectual Property – Symptosense Project, EduSkill
